## CHANGE IN SCHEDULE.

### Course XII to Include Both Geology and Geodesy.

At a meeting of the Faculty on May 3, it was voted to change the schedule in Course XII, so as to make that Course in the future include both Geology and Geodesy. By this plan it will be possible for a student to graduate in four years after specializing in Geodetic work. For some years past there has been no Geodetic option in Course I. The new Course aims to prepare students for professional work in Geology or Topography after a thorough training in Mathematics, Drawing, Physics and Surveying. The plan of the Course admits of specialization in the fourth year; Geodetic, Geologic, Mineralogic, Physiographic or Palaeontologic studies according to the professional aim of the student.

By combining Geodesy with Geology, a double advantage is secured to Course XII. Graduates in Geodesy will be better trained in earth-science than ever before, and the need of such training is much felt by those now employed in the topographic branches of government survey. On the other hand, the graduates in Geology cannot fail to profit by more intimate acquaintance with the precise methods of Topography, and all students of the Course are urged to take part in the Summer Schools of practical surveying.

Option 1 of Course XII is designed for those who plan to prepare for the Civil Service Examinations, which lead to work on Federal or State Geological Surveys. The optional work of the fourth year, however, permits men of exceptional attainment to train as specialists in pure science.

Option 2, Geodesy, differs from Option 1, in that the summer work in Surveying is required; certain mathematical studies and Advanced Surveying are taken the third year, the thesis and professional work of the fourth year being devoted to Astronomy and Geodesy. This option is designed to lead to service in the Topographic or Hydrographic Divisions of the U. S. Geological Survey or in the U. S. Coast and Geodetic Survey.

### ELECTIONS YESTERDAY.

The elections of the Walker Club for the ensuing year resulted as follows: President, C. G. Loring, '06; Secretary, D. G. Robbins, '07.

### TECH PROFESSOR HONORED.

Professor Arthur A. Noyes was elected a member of the National Academy of Sciences at the meeting in Washington, held April 18-20, 1905.

## GENERAL CONVOCATION.

### To Be Held This Afternoon.

There will be a mass meeting of students today at 1 P.M. in Huntington Hall. President Pritchett and Dean Burton will be among the speakers. Cheer practice will be held, in order to make a good showing at the Amherst Meet at Tech Field next Saturday. Every man in Technology should make it a point to be present.

### ELECTRICAL ENGINEERING SOCIETY.

The Electrical Engineering Society held a smoke talk at Tech Union, Monday evening. About fifty men were present. Dr. Frank B. Jewett of the American Telephone and Telegraph Company spoke on "The Protection of Telephone Lines." He took for his illustration the study of a telephone station at New Milford, Conn. The talk was illustrated with lantern slides and black board diagrams. Light refreshments were served during the latter part of the evening.

### CIVIC CLUB ANNUAL MEETING.

The Civic Club will hold its annual meeting at Tech Union, this evening, at 8 o'clock. The officers for next year will be elected. It is important that every member attend.

### 1906 BASE BALL.

The 1906 Baseball Team defeated the Swampscott Athletic Association on Saturday, May 6, by the score of 11 to 8. The Juniors have gone through the season with only one defeat, and are now very desirous of meeting the Sophomore Team.

### SUMMER WORK.

The attention of men desiring summer work is called to a bulletin board on the door of the Dean's office, where notices will be posted from time to time in regard to opportunities for such employment.

### CO-OPERATIVE SOCIETY ELECTIONS

At a meeting of the Co-operative Society held yesterday afternoon in the Trophy Room, the following officers were elected for the ensuing year: F. G. Baldwin, '06, President; F. B. Guest, '06, Vice-President; A. Macomber, '07, Secretary; and A. D. MacLachlan, Treasurer. The receipts for the past year double those of previous years, as the number of scholarships was increased and a larger surplus allowed.

WILLIAM A. NICHOLS, PRINTER, 208 SUMMER ST., REAR

Messrs. W. F. Dolke, 1908, E. F. Whitney, 1907, B. D. Johnson, 1907, and R. P. Lowe, 1907, have been elected to the Editorial Staff of THE TECH.

Now the alarm clocks will have revenge for past neglect!

Confusion would be avoided if men made a habit of using the right hand stairs in Rogers, both going up and down.

Optimistic opinions in regard to the growth of a collegiate spirit at Tech are subject to frequent and sudden jars. It has just become known that the number of 1906 *Techniques* sold to undergraduates falls short of six hundred and fifty. This means that less than one man in two at Tech supports what is perhaps the most creditable of all our student activities, and a book that will compare favorably in every way with any college annual in the country. However, the optimistic spirit is the right one, and upon the amount of our faith in the coming of a true college atmosphere will depend the speed of its perfection.

## COMMUNICATION.

The Editors do not hold themselves responsible for opinions expressed by correspondents.

To the Editors of THE TECH:

The Walker Club begs leave to use the columns of your paper to publicly express regret at the inexcusable defalcation by the Civic Club. The Walker Club has given large leeway, has accepted many excuses and has controlled its thirst too long—the time has come to expose the delinquents. We demand that the Civic Club produce the keg won by the Walker Club at the joint debate.

**GERMAN STUDENTS IN TROUBLE.**

Throughout the military countries of Europe, advanced political opinion finds its most earnest advocates among the university students. The civil authorities are particularly hostile to the students, recognizing the power over public opinion that position and educated ability of expression give.

In Germany of late this conflict has become active. The recent agitation has arisen from the attempt by the authorities to suppress expressions of sympathy with the Russian and Austrian students in their outbreaks against governmental severity. The Austrian outbreak occurred at Innsbruck, where a conflict between students and Italians continued for several days. There were some fatalities, but the affair was not so much thought of because of these as because of the constant dread of discontent which menaces monarchical governments. The mili-

tary suppressed the Austrian students, and from all over Germany came demonstrations of sympathy with them. The German government attempted to suppress these, and went so far as to interfere in the affairs of the Charlottenburg Technical University, dissolving its "student committee." A protest was sent in from fifteen universities, not from the students, but officially from the faculties, which in Europe is thought a very daring and significant step.

The government has practically backed down.

The students of the University of Minnesota gave a circus this year. Advantage was taken of the opportunities for athletic work by gymnasts and also for grinds by the clown. The time-honored Indian attack on a "settler's lonely cabin" was not omitted, and the announcement posters were elaborate.

Is an underwear that appeals to men who wear good things. It is made of a fabric of remarkable elasticity, manufactured on the famous Spring-Needle Machine made by Charles Cooper and patented in nine countries.

The garments made from this fabric are of the finest yarns and their hygienic value is unsurpassed. They always retain their original shape even after the hardest wear. From first to last they maintain that same elegant, silky feel and easy comfortable and natural fit. They are made in two-piece and union suits, and in various sizes, weights and colors.

Be sure to ask your retail dealer for the genuine Cooper Spring-Needle Underwear. If he doesn't keep it, refuse to purchase until you have seen our booklet "T" and samples of the Spring-Needle fabric. They are yours on request.

This trade mark is on every garment. Look for and insist upon it, or you will get one of the "other kinds" that is not "just as good."

**UNDERWOOD'S Original  
DEVILED HAM**

When you strike off into the woods, see that in your pack basket or in the bow of your canoe you have a sufficient supply of Underwood's Original Deviled Ham. A small can and a couple of slices of bread, or, better still, cold toasted bread (toast should be buttered after it has become cold), make a satisfying and delightful lunch. In camp it is a way of indispensable, either for emergency or the regular table. It may be bought at any good grocer's, but be sure you see on the can THE LITTLE RED DEVIL. There is only ONE Deviled Ham—Underwood's Red Devil Brand. All others are imitations, but imitations in name only, as the goods commonly labeled and sold as deviled or deviled ham, made as they are from the cold ends of the packing house, are no more like Underwood's Original Ham than chalk is like cheese. Our Book contains a lot of unique and practical receipts. We will send it FREE.
